ENGINEERING & PROJECT MANAGEMENT SOLUTIONS

## **ALPHATEC S.A. and William Jacob Management Form an Alliance**

**Houston, TX – 2017** – ALPHATEC S.A. and William Jacob Management, Inc. (WJM) announce the signing of a cooperation agreement under which the companies will mutually deliver engineering, construction and demolition/removal services for fixed and floating facilities. The services will include survey, inspection, engineering, project planning, procurement, well decommissioning/abandonment, facilities and pipeline cleaning and removal, construction management and maintenance.

The strategic partnership leverages ALPHATEC S.A.'s fabrication, construction and maintenance expertise in fixed and mobile offshore production units with WJM's proven execution of high stakes capital projects, such as Peregrino, Polvo, Azurite, Berkut and the breakthrough modular offshore rig facility (MORF). The sum of their efforts will target clients in need of removal of existing fixed and floating production facilities or maintenance of existing oil and gas structures.

Under the agreement, WJM will also provide engineering and project management services to complement and strengthen the execution teams of ALPHATEC's projects globally.

The alliance will secure a unique combination of technical proficiency and operational capabilities sustaining a strong focus on innovative technical solutions that will improve operating results for customers. Ultimately, this alliance will provide an extended footprint for both firms, which have a market presence in major hubs throughout the oil and gas industry. This will, in turn, improve proximity to customers and enable diversity in locations for our complimentary engineering and project teams.
