

VISION

World's 1st FDPSO

*Drilling, production, storage & off-loading
onboard a single vessel!*

A long-held industry dream becomes a reality!

WJM's challenge: bridging the gap between two very different professional disciplines: naval architects and drilling rig engineers.

WJM Project Role:

- Served as Drilling Interface Coordinator
- Performed initial design study and development of rig package modules
- Developed detailed 3D modeling of structural, mechanical and piping elements
- Completed design engineering for drilling platform and facilities
- Provided technical support through platform fabrication, installation and startup

VELOCITY

**Record-Breaking Speed
to First Oil**

Fastest time to first oil offshore Brazil and first online without Petrobras participation.

Breaking records while breaking into new territory—these are the types of projects WJM thrives on.

WJM Project Role:

- Supervised FEED study of 27 concepts and facilitated selection of development scenario
- Managed in-country regulatory and importation
- Managed drilling rig refurbishment/upgrade scope of work
- Served as E&C Manager of the overall project
- Assisted with offshore hookup & commissioning

VALUE

**New Benchmarks in Project
Stewardship**

The assignment: maintain momentum through four changes in project ownership over 24 months.

WJM responded with a steady hand, as each change in operating partner introduced new project requirements.

WJM Project Role:

- Serving as Refurbishment Manager for drilling rigs at contractor sites in Texas and Louisiana
- Providing detailed engineering for design of mechanical, process and electrical elements
- Handling procurement of new equipment
- Performing mechanical completion/project commissioning (onshore and offshore)

VALUE

When Zero is the Perfect Score

Safety: the most overlooked and underappreciated contributor to project success.

With more than 250,000 man-hours worked on job sites around the world, the WJM team has one of the best safety records in the industry.

WJM Safety Statistics:

- ZERO Incident Rate since company startup
- ZERO First Aids
- ZERO Lost Time Incidents
- ZERO Recordable Incidents

WJM is the proud recipient of numerous client awards and citations for outstanding safety performance.
