

MULTI-PURPOSE SEPARATOR

Safety Oriented / Production Driven

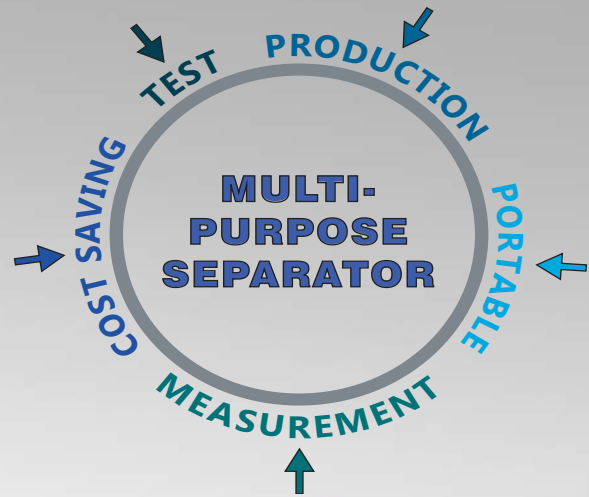

William Jacob Management's code compliant Multi-Purpose Separator is designed for simultaneous Well Testing and Production in one vessel.

This innovation was created for ease of operation and operator safety as key drivers.

William Jacob Management's Multi-Purpose Separator, will provide the following benefits:

- Cost Savings (One Vessel serving Two Applications)
- Offshore Platform Deck Space Civil / Structural (Common Foundation)
- Onshore Lease / Purchase Agreement

One vessel serving two purposes which is achievable with a pressure balanced internal seal plate between the Test and Production section.

-  PRODUCED WATER
-  CONDENSATE
-  GAS PRODUCTION
-  FLARE
