William Jacob Management Lends Assistance to SSP to Develop New Concept FDPSO

William Jacob Management is assisting Satellite Services Platforms (SSP) Offshore Inc. in developing the SSP+ round floater concept. William Jacob Management worked with SSP on the initial concept development. The Company's efforts were focused in the following areas:

- Custom-fit drilling layout and operations to suit potential client well scenarios
- Review size of rig requirements and integration with topside facilities and hull systems
- Provisional rig tubular load parameters and combinations
- Assist with the dry tree option and early development
- Assist with the concept of using Cameron's Emergency Safe Guard (ESG) technology for disconnection and recovery of the drilling riser

William Jacob Management continues to provide assistance to SSP as they move the SSP+ from concept to design, construction and operation.

About William Jacob Management
